Career Objective

Currently transitioning from a Cardiovascular Surgical Technologist role, I am eagerly seeking a Web Development position that will allow me to utilize and expand my skills in the tech industry. With a strong passion for coding and a background in the medical field, I am excited to embark on a new career path in the dynamic world of web development. I am eager to contribute to innovative projects, collaborate with talented professionals, and continuously grow my skills and expertise in this field.

Work History

Cardio Vascular Surgical Technologist

Baylor Scott and White Medical Ctr. Round Rock, Texas

Jan 2019 - Mar 2023

- Assist cardiovascular surgeons in the operating room during cardiovascular procedures, including open-heart surgeries, angioplasties, and bypass surgeries.
- Prepare surgical equipment, instruments, and supplies required for procedures, ensuring their sterility and functionality.
- Set up and operate heart-lung machines, intra-aortic balloon pumps, and other specialized equipment used during cardiac surgeries.
- Scrub in and assist the surgical team with patient positioning, draping, and maintaining a sterile field throughout the procedure.

Training Instructor

Trinity Couriers Inc. Austin, Texas

Jan 2017 - May 2018

- Served on training development team to design standard operating procedures for commercial and home couriers.
- Trained and evaluated incoming drivers on day to day responsibilities.
- Maintained perfect performance evaluation.

Operations Staff Supervisor

United States Army Aug 2008 - Jan 2017

- Managed all aspects of operational training, responsible for planning and coordination of 11 engineering projects.
- Utilized training management systems to provide analytical and statistical feedback.
